SIR M.V. COLLEGE OF SCIENCE & COMMERCE**

**Practical No.1**

**Aim:** Google and Whois Reconnaissance

- Use Google search techniques to gather information about a specific target or organization.
- Utilize advanced search operators to refine search results and access hidden information.
- Perform Whois lookups to retrieve domain registration information and gather details about the target's infrastructure.

The image contains two screenshots of a browser window, likely Google Chrome, displaying search results for the query "whoops! there was an error." "db\_password".

**Screenshot 1 (Top):** The search results show a result from Exploit-DB, which links to a GitHub repository for a Dork tool. The snippet of code includes the search terms. Below this, there are several GitHub discussions related to database password issues, with one post mentioning a "Working installation to use ...".

**Screenshot 2 (Bottom):** The search results show a result from APERC, which links to a login page for "Admin Login". Below this, there are results for Mendeley Data, specifically a dataset named "login.xlsx", and a result from PM SVANidhi Beneficiaries Socio-Economic Profiling Application, which lists "Login Ids for Nodal City Admin Users".

The screenshot shows a search results page from a web browser. The search query is "inurl:admin.php inurl:admin ext:php". The results list several entries:

- Simon Fraser University (SFU) - https://www.sfu.ca/~evscsu/wp-admin/includes/admin.php
- DMA Softlab - http://radmandemo.dmasoftlab.com/admin/Administration Control Panel
- Bioinformatics.org - http://bioinformatics.org/sourceer/ordersys

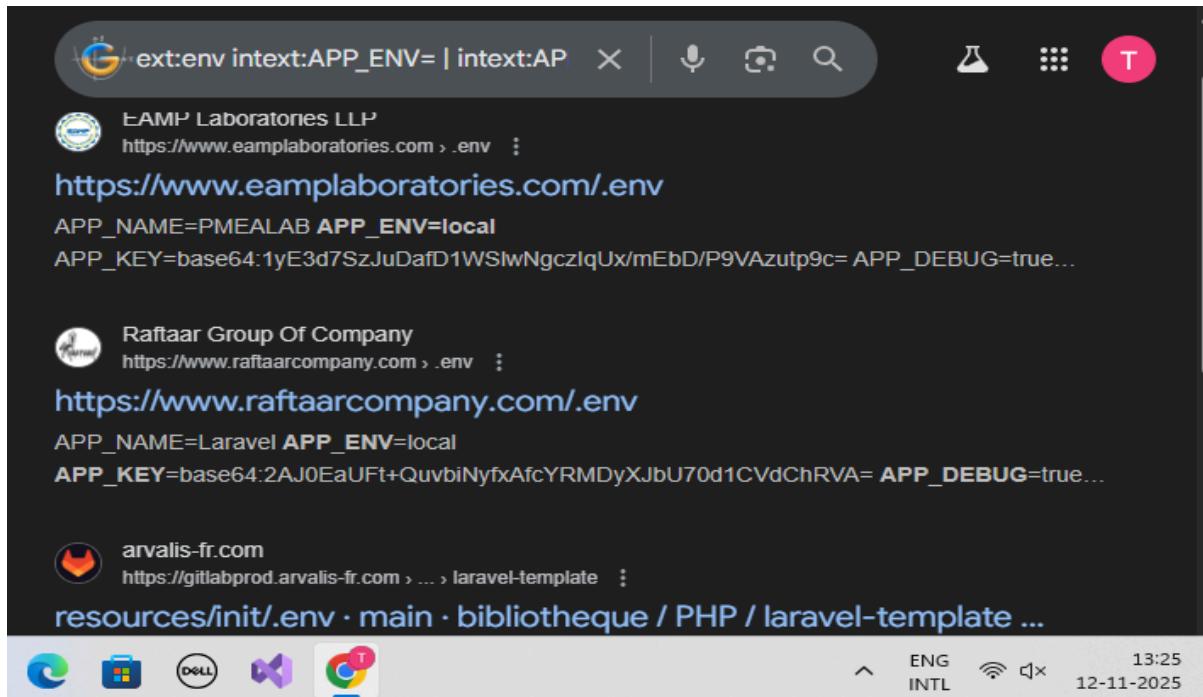

The browser interface includes a toolbar with AI Mode, All, Images, Shopping, Videos, Short videos, News, More, and Tools. The status bar at the bottom right shows the date as 12-11-2025 and the time as 13:24.

The screenshot shows a search results page from a web browser. The search query is "intitle:\"VB Viewer\"". The results list several entries:

- Jumpshare - https://jumpshare.com/viewer/VB Viewer - Open VB File Online for Free
- 86.115.228 - http://86.115.228.123/viewer/live/live/VB Viewer - 86.115.228.123
- groupdocs.com - https://products.groupdocs.com/Viewer/.NET/VB file viewer for C# .NET applications - GroupDocs

The browser interface includes a toolbar with AI Mode, All, Images, Shopping, Videos, Short videos, News, More, and Tools. The status bar at the bottom right shows the date as 12-11-2025 and the time as 13:25.

Perform Whois lookups to retrieve domain registration information and gather details about the target's infrastructure.

The screenshot shows the ICANN WHOIS lookup tool website. The URL is <https://whois.icann.org/en/lookup>. The page has a dark header with language options: العربية, 简体中文, English, Français, Русский, Español. Below the header, there is a search bar with the placeholder "Enter a domain name or an Internet number resource (IP Network or ASN)". A "Lookup" button is located to the right of the search bar. A note below the search bar states: "By submitting any personal data, I acknowledge and agree that the personal data submitted by me will be processed in accordance with the ICANN [Privacy Policy](#), and agree to abide by the website [Terms of Service](#) and the [registration data lookup tool Terms of Use](#)".

The screenshot shows the results of a WHOIS lookup for the domain **INSTAGRAM.COM**. The results are displayed under the heading "Domain Information". Key details shown include:

- Name:** INSTAGRAM.COM
- Registry Domain ID:** 121748357\_DOMAIN\_COM-VRSN
- Domain Status:**  
[clientDeleteProhibited](#)  
[clientTransferProhibited](#)  
[clientUpdateProhibited](#)  
[serverDeleteProhibited](#)  
[serverTransferProhibited](#)  
[serverUpdateProhibited](#)
- Nameservers:**  
A.NS.INSTAGRAM.COM  
B.NS.INSTAGRAM.COM  
C.NS.INSTAGRAM.COM  
D.NS.INSTAGRAM.COM

The browser interface at the bottom shows a toolbar with various icons and a status bar indicating the date and time (12-11-2025).
